

## **ENVIRONMENTAL AND SUSTAINABILITY STATEMENT**

Date of Publication: 1<sup>st</sup> May 2026

### **POLICY STATEMENT**

Styles Façade Solutions (the trading name of Heritage Building Conservation Ltd) recognises the importance of environmental protection and is committed to operating its business responsibly and in compliance with all environmental regulations, legislation and approved professional codes of practice relating to façade cleaning. This must be an on-going process of improvement to both goods and services provided and must include internal housekeeping.

It is the objective of the Company to operate with, and to maintain good relations with all regulatory bodies, and comply with all applicable legal requirements, and our Company's declared policy on environmental issues to carry out all measures reasonably practicable to involve all staff assess the cost benefit of any decisions and facilitate the ability to continually improve environmental performance.

We will publicise our efforts wherever possible, and:

- Meet all relevant statutory regulations.
- Maintain the cleanliness and appearance of our premises to the highest practical standards.
- Aim for efficient use of all resources used in our operations and by reduction of waste through process improvements.
- Recycle all cleaning powder and wherever feasible, take further positive steps to conserve resources, particularly those that are scarce or non-renewable.
- Fully consider, in advance where possible, the environmental effects of any significant new development and adjust the Company's plans accordingly.
- Work with suppliers to ensure that the products and the services they supply are environmentally acceptable.
- Provide the necessary information to enable employees to operate the processes properly and with minimal effects on the environment.
- Train staff, suppliers, and contractors to enhance awareness of environmental legislation, regulations, British Standards, good practice, and company policy.
- Appropriate procedures will be in place to manage environmental emergencies, such as spills or releases, to minimise environmental harm and prevent recurrence.
- Develop a management system to demonstrate continual improvements in environmental and health and safety performance.
- Remove waste in accordance with legislation by registered carriers to licensed tips or recycling facilities.
- Take measures to control ground, river, and coastal water pollution.
- Take measures to control noise pollution.
- Comply with the Montreal protocol by ensuring that ozone depleting gases such as CFC's and halons are not discharged into the atmosphere.

- Ensure all material wastage is minimised, that recycling options promoted, and water, paper and energy are conserved.
- Minimise the impact to surroundings in which the company operates, including air, water, land, natural resources, flora, fauna, humans, and their interrelation.
- Ensure all incidents detrimental to the environment are investigated, reported, and preventative action taken against repetition.
- All suppliers, contractors, and subcontractors working on behalf of Styles Façade Solutions are expected to comply with this policy or demonstrate equivalent environmental standards. Non-compliance may result in corrective action or termination of engagement.

This policy is communicated to all employees, suppliers and sub-contractors and is made available to the public. All personnel understand their obligations under this policy statement and abide with the principles and contents of the Environmental Management System Manual.

The Organisation constantly monitors and reviews its environmental performance and this Environmental Policy Statement, in order to ensure its continuing suitability and will implement appropriate improvements.
